

## 1.1 用户移动端程序 - 注册登录

- The diagram illustrates the process of adding a new WeChat user to the system, divided into four numbered steps:

  - 1 通过微信申请注册** (Add through WeChat application registration): This step involves a database entry with fields `#数据库字段名` (Database field name) and `userid`, and a WeChat entry with fields `手机号* cellphone` (Mobile number) and `微信 openid` (WeChat openid).
  - 2 通过微信绑定实体卡** (Add through WeChat binding physical card): This step involves a database entry with fields `#数据库字段名` (Database field name) and `userid`, and a physical card entry with fields `手机号* cellphone` (Mobile number) and `实体卡号 cardid` (Physical card number).
  - 3 更换微信号** (Change WeChat ID): This step involves a database entry with fields `#数据库字段名` (Database field name) and `userid`, and a WeChat entry with fields `手机号* cellphone` (Mobile number) and `微信 openid` (WeChat openid). A note indicates: **用新微信号绑定旧手机，旧微信自动去除** (Use the new WeChat ID to bind the old phone, the old WeChat ID is automatically removed).
  - 4 更换手机号** (Change mobile number): This step involves a database entry with fields `#数据库字段名` (Database field name) and `userid`, and a physical card entry with fields `手机号* cellphone` (Mobile number) and `微信 openid` (WeChat openid). A note indicates: **微信登陆后设置，重新绑定手机** (Set after WeChat login, rebind the phone).
